Here is the proposal I mentioned on the call with OEM today. I'm also attaching the testimony of Dr. David Weindorf of Texas Tech. He spoke at the Indian Affairs hearing today and spoke about his proposal at some length. We might get a question about it in follow-up.

Dan held a call with NRCS today, and we discussed this proposal briefly. NRCS will contact Navajo Nation (Bidtah Becker, Natural Resources director) to see if they are interested.

Steve – do you know if your Region 6 or 8 counterparts are reviewing this proposal?

Enrique – would you like to share with Reggie, so that we can get an understanding of how the process works for considering proposals like this?

Clancy Tenley

Assistant Director
